FRIDAY, *January* 4, 1856.

By the House of Delegates:

Read, and 3,000 copies ordered to be printed.

By order,

THOS. H. KENT, of Jos., Clk.

ANNUAL REPORT

OF THE

COMPTROLLER

OF THE

TREASURY DEPARTMENT,

FOR THE

Fiscal Year, Ended 30th September 1855,

TO THE

General Assembly of Maryland.

ANNAPOLIS:
REQUA AND WILSON, PRINTERS
1856.

REPORT.

TREASURY DEPARTMENT,
COMPTROLLER'S OFFICE, ANNAPOLIS,
January 3rd, 1856.

To the Honorable General Assembly of the State of Maryland, now in Session:

In compliance with the requirements of the Constitution and laws, the Comptroller of the Treasury Department has the honor to submit the following Report of the condition of the finances of the State:

THE OPERATIONS OF THE TREASURY.

Statement No. 1, annexed to this report, exhibits the aggregate receipts into the Treasury for the fiscal year, ended 30th September 1855, to have been $1,200,762.58, which added to $378,123.98, [the balance in the Treasury, on the 30th September 1854,] makes the total sum in the Treasury, during the fiscal year, $1,578,886.56.

Statement No. 2 will show the disbursements from the Treasury, during the fiscal year, ended 30th September 1855, which appear to have been $985,964.53, and will also show the balance in the Treasury, as of the 30th September 1855, to have been $592,922.03, subject to the payment of charges therein stated, leaving a nett balance of $313,744.01, applicable to the redemption of that part of the public debt, created by chapter 105 of 1827 and chapter 165 of 1829, now called in by the Treasurer, and to the payment of other public demands.

THE ESTIMATES.

The probable receipts, in the current fiscal year, are estimated in *Statement No.* 3. The probable demands upon the Treasury, for the current fiscal year, are estimated in *Statement No.* 4.

"THE FUNDS."

The Free School Fund and Sinking Fund, constituting "The Funds," are reported in *Statement No.* 5.

An examination of this Statement will show, that the "Free School's Fund" had to its credit in the Treasury, on the 30th September 1854, the sum of $41,427.76, and that there was received, during the fiscal year just ended, on this account, the sum of $66,183.23, making an aggregate of $107,610.99. The amount

expended, during the same period, was $77,555.26, which left to the credit of that Fund, on the 30th September 1855, the sum of $30,055.73.

That portion of the School Fund, which consists of Bank Stock and Cash, belonging to the Counties, is to be found set forth in *Statement* A.

The receipts and disbursements on account of the "Sinking Fund," during the past fiscal year, are set forth in *Statement No.* 5.

The receipts, on this account, during the year, ended 30th September 1855, amounted to $263,025.87. This entire sum was invested for the use of that Fund, so that it will be seen, there was no Cash in the Treasury, at the close of the fiscal year, to the credit of the "Sinking Fund." The rapid investment of the increment of the "Sinking Fund" has been the aim of the Treasurer, that the Fund may be increased as speedily as it is practicable. By his prudent management, this Fund has been augmented from the sum of $3,158,637.53, which was its amount on the 30th September 1854, to the sum of $3,426,749.95, within the fiscal year, ended 30th September 1855. *Statement* B has been prepared to exhibit the character of the Stocks purchased for the Sinking Fund, since 30th September 1854 to the close of the last fiscal year.

It will appear, upon an examination of this Statement and *Statement No.* 5, that, while the Sinking Fund has been increased by the purchase of Stock, to the extent of $268,112.42, yet this has been accomplished by the expenditure of $263,025.87 only, being a saving to the State of $5,086.55. Such a gratifying result, in the management of the "Sinking Fund," has been produced by the zeal and fidelity of the Treasurer, to whose care is confided this branch of the State Finances.

It is a source of much pride and pleasure, that the Comptroller is thus enabled to report the general finances of the State in a condition so prosperous and healthy.

DIRECT TAXES.

Statement No. 6 will show the amount of receipts from this source of the public revenue, during the last fiscal year.

The entire sum received was $365,837.88, of which $141,506.19 were paid on account of the Direct Tax for 1855, and $224,331.69 were on account of former years.

A comparison of these receipts with those of the preceding fiscal year, will show the aggregate receipts of the last year to have been $27,841.23, less than those of the previous year, but this decrease is not for the Direct Tax for the year 1855, but for the years antecedent thereto. Such a result was anticipated, because the amount of taxes in arrear is fast diminishing. The receipts on account of the Direct Tax for 1855, during the last fiscal year, exceeded, by $7,678.47, the receipts, on same account for 1854, during the previous fiscal year.

Some specific rule should be made, by which the several Mutual Insurance Companies of the Counties should be equally assessed. In some of the Counties, the Direct Tax is paid upon their entire capital, whether represented by Cash, Stocks or premium notes, while in other Counties this mode of taxation is resisted by these Companies and little or no tax paid by them.

The capital of all Corporations, not specially exempted, is liable to taxation, and the mere fact that it is represented by premium notes or that it trades upon the mutual principle and declares no dividends, *eo nomine*, should, in no way, relieve any Corporation from the payment of its just share of taxation. The fund, on which a Company trades, whether it is in Stock, Cash or promissory notes, is the capital of that Company, and as such should be assessable.

Section 7 of chapter 266 of 1847 seems to be ample to cover all such cases, but it is construed differently by the County Commissioners in several of the Counties.

No tax has been retained by the Register of the City of Baltimore, for the year 1855, out of the interest payable on the "Baltimore Water Stock," created under chapter 376 of 1854. It is alleged, that there is no authority, in the last mentioned act, for the imposition and retention of the State Tax on the said Water Stock. However this may be, some provision should now be made, not only for the collection of this tax in the future, but also for the past year. A law, somewhat similar to chapter 218 of 1845, might be passed to effect this object.

STAMP DUTIES.

The receipts into the Treasury from Stamps and Stamp duties are to be found stated in *Table No.* 7.

They amount to the sum of $72,664.07, of which $48,421.80 were paid by the Commissioner of Stamps and $24,242.27 were received from the Clerks of Courts.

The amount received from this source of revenue, during the last fiscal year, exceeded the sum paid into the Treasury during the preceding fiscal year, by the sum of $1,653.15.

It was suggested in the Report, which issued from this Department on the 3rd January 1855, that a change in the management and collection of this tax might be made to the advantage of the State. Under the present system, there are no checks of practical utility upon the Stamp Office, and no means of testing the accuracy of the accounts of the Commissioner, so far as the return of money, collected by him, is concerned.

The same principle, which suggested the establishment of the Comptroller's Office as a check upon the Treasurer, demands that some means should be adopted, by which the accounting officer of the Treasury should be enabled to judge of the correctness of all accounts submitted to him for audit. Such a change could be readily effected by removing the Stamp Office to the City of

Annapolis, and placing the same under the charge of the Comptroller.

It should then be made his duty to issue from his office to the Clerks of the several Courts in the State stamped paper, parchment and vellum, both printed and in blank, in such quantities as might be desired, to be sold by them, in the same manner as the Stamps, now received from the Commissioner, are sold in the Counties. By this means, each of the Clerks would be charged with the Stamps received, and all the money from this source of revenue would pass through their hands. This arrangement would form a complete check, by which every dollar received could be known and ascertained at the Treasury Department.

Such a system would reduce the expense of the Stamp establishment to a considerable extent. It would work no inconvenience to the citizens of Baltimore, where alone the change would operate, because they would be able to obtain from any of the Clerks of the several Courts such Stamps and in such quantities as they might require.

The change suggested would add to the duties of this Office a large amount of labor, but it would be attended with results so highly beneficial to the interests of the State, that it demands an earnest recommendation.

REVENUE FROM CLERKS OF COURTS, &c.

Statement No. 7 also exhibits the receipts from sales of Licenses, Taxes on Plaintiffs, on Commissions of Trustees and Receivers, Excess of Officers' Fees, &c., which are received through Clerks of Courts, Commissioner of Stamps, State's Attorney for Baltimore City, &c. The amount derived from these sources, during the fiscal year, was $263,353.70. A comparison of these receipts with those of the previous year, shows an increase in favor of the last fiscal year, on these accounts, to the extent of $24,142.04. This large increase is chiefly confined to the receipts from Licenses to Traders and others.

This branch of the public revenue could be greatly augmented by a thorough revision and amendment of the License Laws. They are scattered over the Statute Books in most admirable disorder, and should be condensed into a concise act, with such amendments as experience readily suggests.

Since the period, at which most of the present Licenses were authorised to be granted, many new trades and kinds of business have been established, for which no license is required by existing laws.

Many of these pursuits are very profitable, and should be made to contribute a fair proportion towards the maintenance of the State Government and the reduction of the public debt.

The preparation of such a law, reducing to a tangible form the present acts and embracing those trades, which are not now properly taxed, would require much time and labor. It is suggested,

that the Legislature should employ some competent person to prepare, for their action, such a digest of the license laws, as was done in reference to the revenue laws, compiled by Messrs. Hinkley and Carter under a resolution of a former Legislature.

The present system of issuing Licenses to the Clerks of the several Courts from this Office is strongly commended. The law should, however, be so changed as to authorise the Comptroller to affix to the Licenses a stamp, instead of his signature. The check, designed by the Legislature, would be continued by this means, but a vast amount of unnecessary manual labor would be saved to the Comptroller.

Licenses to Auctioneers and to Agents of Insurance Companies, not incorporated by the laws of this State, should issue directly from the Comptroller's Office to the parties, and such a change should be authorised by law.

The Clerks of the various Courts, with laudable punctuality, have paid, into the Treasury, the public money, which accrued in their hands during the last fiscal year, with the exception of the Clerk of the Circuit Court for Caroline County, who is in default for revenue in his hands, as of 1st December 1854 and 1st June 1855. Suits have been ordered on his Official Bond for this indebtedness.

That part of the revenue, derived from Tax on Commissions of Trustees and Receivers, could be more effectually secured by requiring the Auditors of the several Courts to send to the Comptroller, immediately after the rendition of their audits in each Equity Case, a statement of the allowance of Commissions made to any Trustee or Receiver. For this service, they could be allowed a reasonable compensation, to be taxed as part of the costs of the case.

Your attention is called to the suggestions made in the Report from this Department to the Governor on the 3rd January 1855, [a copy of which is herewith transmitted,] in relation to the payment, into the Treasury, of Fines, imposed by Justices of the Peace, under the laws there referred to, and also to the necessity of fixing regular accounting periods during the year.

The additional safeguards recommended to be thrown around the execution of Bonds of Public Officers, charged with the collection of the revenue, are again suggested.

REVENUE FROM REGISTERS OF WILLS, &c.

The revenue paid into the Treasury by Registers of Wills, which is chiefly composed of Tax on Commissions of Executors and Administrators and on Collateral Inheritances, amounted, in the last fiscal year, to $61,506.52. The sum of $37,116.11 was on account of the first named tax and $24,390.41 were for the last mentioned tax, all which appears in *Statement No.* 8.

This Statement discloses the fact, that the amount received during the last fiscal year, from these sources, was less than the

amount received in the fiscal year preceding, in the sum of $18,355.81.

The checks, heretofore adopted in connection with this source of revenue, have proved utterly valueless and should be amended. Instead of the duplicate receipt required to be given by Registers of Wills, it is recommended, that they should make up a Statement quarterly, under oath, showing the amount of Commissions allowed to each Executor and Administrator, and also the amount of Collateral Inheritances liable to taxation, which Statement should be certified by the Judges of the Orphans Courts, and transmitted to the Comptroller.

A failure (by any Register of Wills) to make up such a Statement, and to return the same, should be made a misdemeanor and punishable as such by law.

It is the duty of the Comptroller to report, that the Register of Wills for Cecil County is in default for the revenue accrued in his hands for the last three semi-annual returns preceding the close of the fiscal year; the Register of Wills for Caroline County is in default for the balance of revenue in his hands on the 1st November 1854 and 1st June 1855, and the Register of Wills for Howard County is in default for revenue in his hands, to 1st November 1854 and 1st June 1855.

AUCTION DUTIES.

Statement No. 9 gives the amount of duties paid by the several Auctioneers, in the City of Baltimore, which will be found to have been $18,199.39.

This sum was carried to the credit of the City of Baltimore, under chapter 266 of 1853 for the deepening of a Channel in the Chesapeake Bay. On the 26th January 1855, the Mayor and City Council of Baltimore, in obedience to the third section of the act, above referred to, reported to the Comptroller an account of their disbursements in relation to the deepening and improving of the Channel aforesaid, which report is herewith submitted to your Honorable Body.

NOTARIES PUBLIC.

A change might be very advantageously made in the manner of collecting and securing the revenue in the hands of Notaries Public, by delivering to them from this Department, blank protests, and charging them with the same in the manner heretofore adopted in the delivery of Licenses to the Clerks of Courts.

BALTIMORE AND OHIO RAIL ROAD COMPANY.

This Company has, with great promptness, made its regular payments to the State. The amount received from the capitation tax on the Washington branch of this Road, amounted, during the late fiscal year, to $67,972.39, being an increase of $5,094.86, over

the amount received during the fiscal year, ended 30th September 1854. This result was anticipated by the Comptroller and so stated in his last annual report to the Governor.

SUSQUEHANNA AND TIDE-WATER CANAL COMPANIES.

Statement No. 10 shows, that these Companies paid, during the year, the sum of $67,100 on account of current interest, and $3,712.20 on account of interest on the unfunded debt of said Companies. The attention of the Legislature is due to the condition of accounts between the State and these Companies, that some specific arrangement may be made to fund the arrearages of interest due by them.

NORTHERN CENTRAL RAILWAY COMPANY.

Since the last annual Report of the Comptroller, the York and Maryland Line Rail Road Company and the Susquehanna Rail Road Company, in Pennsylvania, and the Baltimore and Susquehanna Rail Road Company have been consolidated, and now constitute one Company under the name of the Northern Central Railway Company.

In pursuance of the authority granted it by chapter 260 of 1854, that Company has mortgaged its entire Railway from Baltimore to Sunbury, with the tolls, &c., to the State of Maryland, to secure the annual payment of $90,000, subject to extinguishment upon payment of the principal; and the Treasurer has assigned to it all the State's interest in the Baltimore and Susquehanna Rail Road Company. The Northern Central Railway Company has paid punctually the quarterly installments assumed under the said Mortgage, and the State will, in all probability, now realise, as a certain source of income, the annual payment of $90,000.

EMOLUMENTS OF CLERKS OF COURTS, &c.

It will be observed by an examination of *Statement No.* 7, that the sum of $8,392.80 was received into the Treasury from Officers of the State, whose fees and emoluments exceeded the annual amount allowed by the Constitution and laws. Of this sum, the amount of $2,500 was received from the Clerk of the Circuit Court for Frederick County for the years 1852, 1853 and 1854, leaving, as per his Report on file in this Office, a considerable sum, still uncollected, in the Sheriff's hands for the same years. The management of the Office of this Clerk is specially worthy of commendation. The Register of Wills of the same County has paid into the Treasury, on the same account, the sum of $309.46. The State's Attorney for Baltimore City paid, on this account, $2,396.48; the Clerk of the Court of Common Pleas paid $1,626.93; the Clerk of the Criminal Court of Baltimore paid $1,344.20, and the Register of Wills for Baltimore City paid $215.73. To all of these

Officers much praise and credit is due for the prudent and careful conduct of their Offices, by which these sums have been secured to the Treasury.

Complaint is made by the Clerks of Courts and Registers of Wills, in some parts of the State, in relation to the difficulties attendant on the collection of their fees.

To remedy this evil, a law should be passed requiring these Officers to deliver annually to the Sheriffs true bills of all uncollected fees, and the Sheriffs should be compelled, under heavy penalties, to collect within a specified time all those, which are not returned by them, as due by Insolvents or Non-residents. By this means, a large amount of revenue from this source might be secured to the State.

A number of Officers in this State, whose emoluments exceed the Constitutional limit, allege, that the expenses of their Offices reduce the amount below that sum. They neglect or refuse, therefore, to report to the Treasurer, as required by the first section of Article X. of the Constitution. A law should be passed requiring them to make semi-annual reports to the Comptroller, stating not only the amount of their receipts, but the details of their expenses, which should be allowed or disallowed according to their justness and reasonableness.

TOBACCO INSPECTIONS.

In *Statement No.* 11 may be found the amount of the gross receipts from the State Tobacco Inspections in the City of Baltimore, during the fiscal year just closed, which was $63,019.80 and the expenses were $45,196.32, leaving a nett balance of $17,823.48 applicable to the payment of interest on Tobacco debt, the erection of Warehouses, ground-rent, &c. The recommendation of the Comptroller in relation to Warehouse No. 6, just completed in Baltimore, made in the last annual Report to the Executive, is here renewed.

The amounts respectively returned by the several Inspectors are set forth in *Statement No.* 12.

During the year 1854, the Comptroller, finding that there was no insurance upon any of the Tobacco Warehouses in Baltimore, and believing it improper, that so much of the State's property should be uninsured, effected, during the temporary absence of the Executive, an insurance on all these Warehouses. The insurance has been continued and the premium paid out of the Executive Contingent Fund. It is necessary that a sufficient sum should be appropriated for this purpose.

AGENTS OF INSURANCE COMPANIES NOT INCORPORATED BY THE LEGISLATURE OF MARYLAND.

The Agents of Insurance Companies, not incorporated by the Legislature of Maryland, should pay a specific sum of money for a License to act, as such Agents, in lieu of all other taxes therefor,

and should be required, before obtaining a License, to furnish such evidence of the condition of the Company, for which they propose to act, as would give to the people of Maryland some guarantee of its solvency. Such penalties for a violation of the law, on this subject, should be prescribed, that the application by an Agent for a proper License would be effectually secured. Advertising an Agency, or putting up a sign, as such Agent, if proven to have been done with his assent, to be *prima facie* evidence of a violation of the law.

Insurance Brokers should be required to take out a similar License and be subject to penalties, like those enacted for the punishment of Agents.

A law, somewhat similar to that passed by the Legislature of Ohio in May 1854, and adopted by the States of Indiana and Illinois, in relation to this subject, would prove beneficial to the interests of the State.

MISCELLANEOUS.

There should be an appropriation to meet any demands on the Treasury made by the presentation of Coupons in arrear, which were not funded under the provisions of chapter 238 of 1846.

They are, from time to time, presented in small sums, and their payment should be promptly met.

Your attention is particularly due to the necessity of making some provision by law for the loss of certificates or other evidences of the State debt, in pursuance of the authority contained in section 3 of Article IV. of the Constitution.

A case has arisen by the loss of the Steamship Arctic, by which the owners of a portion of the public debt have been deprived of the interest due thereon, because there was no law authorising the payment of interest, except on production and surrender of the original Coupon.

The appropriation made by chapter 27 of 1854 does not fully pay the indebtedness of the State to Messrs. Barings Brothers & Co., on the account therein mentioned, and it will be necessary, for the entire liquidation of the debt, to increase the sum appropriated. A copy of their Statement to this Department accompanies this Report.

The expense, which has attended the sessions of the Committees appointed in pursuance of Resolution No. 8 of 1840, has become a serious and unnecessary charge upon the Treasury. The cost of the Coupon Committee has been more than $1,000 almost every year since 1844, and for the last year, 1854, the sum paid for this account was $1,763. A single settlement with Messrs. Barings Brothers & Co., and an agreement with them providing for semi-annual remittances of paid Coupons to the Treasury Department, at such periods, when the Officers of the Department would have time to record the same, would entirely dispense with the necessity of a Coupon Committee. The Committee of Ways and

Means could, in one day, examine the registered Coupons and test the accuracy of the record.

There should be provision by law, allowing the Comptroller, in case of necessary absence from Annapolis or illness, to appoint, in writing, his Chief Clerk to discharge the duties of Comptroller *pro tem.*, and for all the acts of said Deputy, while so acting, the Bond of the Comptroller should be answerable in the same manner and extent as for his personal acts. As the office is at present organised, a severe illness of the incumbent would entirely arrest the regular business of the Department.

It is impossible for the present incumbent to retire from this Office without bearing testimony to the promptness and fidelity with which the Clerks of the Treasury Department have discharged their respective duties.

All which is respectfully submitted.

WM. PINKNEY WHYTE,

Comptroller.

APPENDIX.

APPENDIX.

No. 1.

A Statement showing the total Receipts into the Treasury, in the fiscal year, ended 30th September, 1855, *to have been* $1,200,762.58, *which, added to the balance in the Treasury, as of* 30*th September,* 1854, *will make the aggregate in the Treasury, during the fiscal year,* $1,578,886.56.

There was received into the Treasury, in the year ended 30th September 1855, the sum of $1,200,762.58 on the following accounts, viz:	
From Auction Duties,.....	$18,199 39
" Auctioneers' Licenses,.....	10,250 00
" Baltimore and Ohio Rail Road Company, for one-fifth of receipts from passengers on the Washington Branch Road,.....	67,972 39
